Overview Map

Job Posting Information

Term Posted:	2023 - Winter
Number of Positions (Must be a numeric value):	1
Job Title:	Software Developer Co-Op
Job Location:	Remote Working Supported
Length of Work Term:	4 month
Targeted Faculty and Disciplines:	View Targeted Programs
Hours per Week:	40
Canadian Citizenship Required:	No

making our technology as scalable and user-friendly as possible. You will join one of our core value streams such as Finance, Equity, & Balancing, Logistics, Transportation & Scheduling, Quality & Processing, Platform, Onboarding, or Producing. Your days will consist of working on daily product improvements as well as large-scale projects!

RESPONSIBILITIES

In the role of Software Developer Co-Op, the successful applicant will be tasked with:

- Working with your value stream to turn large, deeply technical tasks into manageable chunks
- Participating in daily standups with your team to go over current work
- Monitoring user sessions and identifying areas for improvement
- Developing the Milk Moovement web and mobile applications
- Communicating with the Customer Success team to find and resolve bugs
- Undertaking design and database work

WHAT WE'RE LOOKING FOR

Milk Moovement seeks to have a diverse, inclusive, team-oriented, and curiosity driven herd. Our team lives up to our core values, and we expect you will be excited to do so as well. You will likely have had previous experience with Javascript/Typescript but working in the dairy industry is not required! We will teach you all there is to know about the industry beginning with our dairy 101 course. It is definitely more complicated than you think and that is why we do what we do!

Here's what else we're looking for:

- Experience with Node, React, TS/JS, MongoDB
- Creative minds that aren't afraid to work hard
- An appetite for learning
- Previous personal or academic projects
- Interest in or experience with data or cloud engineering (nice to have)

OTHER DETAILS

Location: Remote

Hours: Full Time (Flexible)
