Mr. Dan MacDonald,
7071 Bayers Road,
Suite 2007,
Halifax, Nova Scotia, B3L 2C2, Canada.

Dear Mr. MacDonald,

I am writing to express my interest for the position of Associate Software Developer with ERS Software Canada as advertised through the Dalhousie's myCareer website. I am an international student pursuing 2nd year of bachelor's degree in Computer Science at Dalhousie University. I am a self-motivated individual with a curious mind, and I am confident that my in-dept knowledge of programming that I have acquired through academic coursework and projects and my strong communication skills will make me an asset for this position. Working for your company is a great opportunity for me to learn and build my technical and professional skills.

I am a very outgoing and cheerful personality who loves meeting new people and working in teams which has helped me gain strong communication skills. During my high school I was a member of event organization committee and as member I worked with a team of 8 people where we discussed our plans for the event and scheduled it. Additionally, I also have excellent **mentoring skills** which I gained while working as teaching assistant as you can see in my resume. Not only professional skills but I also have a strong knowledge of **HTML, CSS, and JavaScript** and I have built a dynamic university academic time-table website by using those languages. I have been practicing coding with different types of programming languages like **C, Python, and Java** for more than 3 years which has helped me improve my **problem-solving and analytical skills**. I have also developed **communication, leadership and designing skills** while I worked with Dalhousie university's google student developer club as a **graphic designer**, creating designs for various seminar, webinars, and other events working with team of people.

I am excited to contribute my technical abilities and support towards your team to help your company achieve its goals. Please review my resume for a more in-depth illustration of work history and accomplishments. I would be pleased to meet with you for an interview to discuss the position and my qualifications further.

Thank you for your time and consideration,

Warm Regards,
Maxine Patel.
