

Written 2.1 | Assessment rubric | CSCI 2100

Excellent	A+ A A-	<div>Content</div> <ul style="list-style-type: none">■ The report shows an understanding of the distinct sections of a report and how they fit together.■ The writing is clear and understandable for a wide range of receivers. <div>Presentation</div> <ul style="list-style-type: none">■ The illustrations are presented correctly and add understanding to the text. <div>Critical analysis</div> <ul style="list-style-type: none">■ The conclusions and recommendations show original insights drawn from critical analysis of how the company's needs are met by the available choices. <div>Mechanics</div> <ul style="list-style-type: none">■ Citations and references are in IEEE style and used correctly as described in the coursepack.■ The document is without misspellings, grammar mistakes, or typographical errors.
Good	B+ B B-	
Satisfactory	C+ C C-	
Marginal Pass	D	
Insufficient	F	

We will reduce grades assessed using this rubric when submissions are incomplete, do not meet technical or academic standards, do not show attempts to improve from the previous written assignment, or have insufficient original content.

Only the most recent submission will be considered. Submissions after the deadline will not be opened for grading.
