Ms. Lena Lee,  
Human Resources Officer,  
6074 Lady Hammond Road,  
Halifax, Nova Scotia – B3K2R7

Dear Ms. Lee,

I am writing to express my interest for the position of Data Analysis Assistant with Atlantic Central and League Saving and Mortgage as advertised on Dalhousie's Mycareer website. I am pursuing 2<sup>nd</sup> year of my Bachelor of Computer Science degree at Dalhousie University. I am student with a curious mind, and I am confident that my in-dept knowledge of relational databases, data structures, Tableau software, and professional skills that I have acquired through academic coursework, projects, and passion for developing high-quality solutions will make me an asset for this position. Working for your company is a great opportunity for me to learn and build my technical and professional skills.

I have good knowledge of MySQL and developing relational databases as have worked on a database project before as mentioned in my resume, working on these projects with people from different age group made me a team player and enhanced my interpersonal skills. Additionally, I also have done personal courses to learn Excel, Tableau for data analysis and have knowledge of data structures too. I have been practicing programming languages like C, C++, and Java for more than 4 years. I have strong knowledge of object-oriented programming with java and have received A+ twice for the related courses at university. Moreover, I am learning Discrete Mathematics to learn more about data structures this semester and will be completing those courses by summer 2022. Not only technical skills, but I have also developed communication, organization and designing skills while I worked with Dalhousie university's google student developer club as a graphics designer, I worked with the team of 10 students where we discussed and created graphic designs individually for the events and seminar. Furthermore, I am willing to learn new technologies that will allow me to widen my technical horizons and contribute to your organization.

I am excited to contribute my technical abilities and support towards your team to help your company achieve its goals. Please review my resume for a more in-depth illustration of work history and accomplishments. I would be pleased to meet with you for an interview to discuss the position and my qualifications further.

Thank you for your time and consideration,

Warm Regards,  
Mansi Patel.
