Mr. Daniel Kyte
Pisces Office Manager
27 Parker St
Darthmouth, Nova Scotia, B2Y 4T5.

Dear Mr. Kyte,

I am writing to express my interest for the position of Ocean Programmer with Pisces Research Project Management Inc. as advertised on Dalhousie's MyCareer website. I am pursuing 2nd year of my Bachelor of Computer Science degree at Dalhousie University. I am student with a curious mind, and I am confident that my in-dept knowledge of web – development and my professional skills that I have acquired through academic coursework, projects, and passion for developing high-quality solutions will make me an asset for this position. Working for your company is a great opportunity for me to learn and build my technical and professional skills.

I have developed my interpersonal, organizational, and web skills while I worked with event organizing team at high school. As a member of event organizing committee, I worked with group of 6 people to discuss, plan, and schedule all the events at school. I was also individually responsible to handle social media profiles of the committee. I developed designing skills while I worked with Dalhousie university's google student developer club as a graphic designer, creating designs for various seminar, webinars, and other events working with team of people. Not only professional skills, but I also have a good experience with designing websites and debugging tools like Firebug, Chrome inspector as I have experience working with HTML, CSS, and JavaScript from last 2 years, and have also scored A+ on web-development course where I built a dynamic website as described on my resume. I have been practicing coding with different types of programming languages like C, C++, and Java which has helped me improve my problem-solving and analytical skills. I also have a good knowledge of MySQL and developing databases as I have worked on a database project before as mentioned in my resume. Furthermore, I am willing to learn new technologies that will allow me to widen my technical horizons and contribute to your organization.

I am excited to contribute my technical abilities and support towards your team to help your company achieve its goals. Please review my resume for a more in-depth illustration of work history and accomplishments. I would be pleased to meet with you for an interview to discuss the position and my qualifications further.

Thank you for your time and consideration,

Warm Regards,
Mansi Patel.
